The safe harbor statement under the US private securities litigation reform act 1995

This presentation may contain forward-looking statements, including but not limited to, projections of financial developments, market activities or future performance of products and solutions, containing risks and uncertainties. These forward-looking statements are subject to change based on known or unknown risks and various other factors, which could cause the actual results or performance to differ materially from the statements made herein.

Note on Alternative Performance Measures (APM): all bridges from APM to reported figures can be found in the financial section of Sulzer’s annual report 2019.
Business Review
2019 highlights

• Strong organic growth in orders (+6.3%) and sales (+10.8%)
• OpEBITA margin increase of 40bps to 10.0%
• Free Cash Flow up 17.7% at CHF 213m
• Proposed dividend increase to CHF 4.00 (3.50 previously)
• SFP delivered savings totaling CHF 253m (CHF 23m in 2019)
• Two acquisitions: GTC (Chemtech) and Alba (RES)
• Girts Cimermans new Division President APS and EC member
• Guiding for continued growth and profitability increase in 2020
Well balanced across markets and regions

Two thirds of Sulzer’s business is low cyclical

**Order intake by market**
- 2019
- 12% Upstream
- 5% Midstream
- 11% Refineries
- 22% Chemicals
- 13% Water
- 12% Power
- 11% APS
- 14% Other

**Order intake by region**
- 2019
- 43% Europe, Middle East, Africa
- 34% Americas
- 23% Asia-Pacific

**Order intake by type**
- 2019
- 41% Aftermarket
- 11% APS
- 13% Water incl. Aftermarket
- 35% Other Equipment
The new Jubail-Riyadh water pipeline will supply the 7m people of Riyadh with potable water, pumped through the desert all the way from the Arabian Gulf.

In Q1 2019, Sulzer received the order to supply highly efficient pumps for this water pipeline and additionally an order for pumps for a desalination plant. Together the order volume was CHF 42m.

Fresh water supply for Riyadh

412km long pipeline delivers 1.2m m³ of potable water per day
### Pumps Equipment

Strong order intake in Water, continued improvement in profitability

#### Highlights

- **Orders:**
  - **Water** up 17% organically including two large projects for water transport and desalination in the Middle East (+6% excluding)
  - **Chemicals** up 16% on continued market momentum
  - **Power** up 13% on low base
  - **O&G** up 4% on continued market momentum, despite high base in midstream
- **Sales** strong growth on high order backlog entering 2019
- **opROSA**: higher volume, good execution and savings more than offset negative mix effect

1. Adjusted for currency effects
2. Organic: adjusted for currency and acquisition effects
Pioneering additive manufacturing solutions for parts and repairs

Applying innovative additive solutions to maximize customers’ equipment availability and minimize waste

Laser Metal Deposition

Selective Laser Melting
## Rotating Equipment Services

Growing in all product lines, margin up 40 bps on Pumps Services upswing

### Order intake by market

- 55% Pumps Services
- 28% Turbo Services
- 17% Electromechanical Services

### Highlights

- **Pumps Services** orders up 7% on new equipment rebound and new service centers
- **Turbo Services** orders up 18% on improved power, strategic focus and low base
- **Electromechanical Services** orders up 4%
- **OpEBITA and opROSA** increased with higher sales
- **Acquisition of Alba Power** enlarges Sulzer’s portfolio with aero-derivative gas turbines for distributed power

2. Organic: adjusted for currency and acquisition effects
Today, most of the plastic ends up in waste and landfill sites, only a small amount is recycled.

Norwegian start-up Quantafuel developed a chemical recycling process converting plastic polymers back into hydrocarbons, which can then be used by different downstream industrial processes, including new plastic materials, that currently rely on fossil fuels.

For its first full-scale plant for continuous processing, Quantafuel partnered with Sulzer to design, fabricate and install flexible fractionation units in record time.
Chemtech

Revenue growth driving significant improvement in profitability

Award for resource efficiency

ecopaCC™ wins Packaging Europe Sustainability Award 2019

Sulzer has won the world’s most prestigious packaging innovation competition in the “Resource efficiency” category with ecopaCC™, a collapsible primary packaging for adhesives and sealants. The revolutionary design slashes costs, resources and waste, with significant savings potential across the value chain from transportation to disposal.
Applicator Systems

Comment

• Order intake gross margin increased on high order selectivity in engineered pumps and despite negative mix effects
• Sales increased on strong opening backlog and favorable markets
• opROSA increased due to higher volumes, SFP savings and solid execution more than offsetting negative mix effects
• Free cash flow at record levels on stable net working capital despite higher sales

1. Adjusted for currency effects
2. Organic: adjusted for currency and acquisition effects
Quarterly order development

Q4 2019 orders up 6.2\%^{1} YOY and 3.2\% organically^{2}

¹ Dividend yield = ordinary dividend per share / share price on Dec 31.
Outlook
Financial guidance 2020
As of February 19, 2020

Order Intake: up 2% – 4%
Sales: up 1% – 3%
Operational ROSA %: 10.2% – 10.5%

► Excludes potential impact from COVID-19

Note: Adjusted for currency effects, but including acquisitions
COVID-19
As of 17.02.2020

Current situation
• All 5 of our Chinese factories back up and running (4 on the 10.02, 1 on the 14.02)
• 63% of critical workforce (staff incl. temps to run factory) and 73% of all workers are available
• Factories operating on average at 40% of capacity
• Supply chain ramping back up + domestic transport remains difficult = some missing components
• Focus is on supporting our employees / their families and providing a safe working environment

High level view of impact (very preliminary)
• If situation continues to evolve favorably, volumes could be recoverable during the year
• One-off impact expected due to under-absorption during shut-down / ramp-up
• China represented 12% of Sulzer orders in 2019
2020 outlook

• **Positive leading indicators for Sulzer end markets**
  • Water, Chemicals, Oil & Gas and Aftermarket show high levels of tendering activity into 2020
  • Industry softened in H2 2019
  • Beauty should return to growth, other APS markets robust

• **Volume growth to continue** albeit at slower pace given high 2019 levels and continued selectivity

• Operational profitability to **further improve to 10.2% – 10.5%** with some uncertainty linked to COVID-19

• SFP closed 2019 but **ambitious cost actions to continue**

• **Increased dividend** of CHF 4.00 proposed to AGM
