

INVITATION

# Sulzer at Energy

October 23 – 25, 2018 | Tampere, Finland

Sulzer is one of the leaders in innovative pumping, mixing and agitation solutions, compressors and services for the power industry. Our comprehensive and high performance portfolio includes also energy-efficient products for water and effluent treatment applications.

In addition to Sulzer's own product families, we service vacuum pumps, other centrifugal pumps and agitators, and mechanical seals. Our portfolio also covers the service of turbines and compressors.

Meet our specialists at the Energy to hear more on our innovative solutions and discover how we can improve the performance of your power generation processes.

**Time:** October 23 – 24 9:00 am – 5:00 pm  
October 25 9:00 am – 4:00 pm
