

WEBINAR

Sulzer at PaperTech

August 13 and 14, 2020 | India
CII – Sohrabji Godrej Green Business Centre

As a full-line supplier, Sulzer has a proven track record and excellent references in developing energy-efficient products for a wide range of pulp, paper and board process applications.

Join us for an online presentation on Wireless IoT condition monitoring system by Saku Vanhala, Product Portfolio Manager. This presentation will offer valuable information that you can use to improve the everyday performance of your equipment. With our Sulzer Sense wireless IoT condition monitoring system, you have a smart way to take care of your equipment easily and safely.

Time: August 14 15:00 pm (Indian time)

Presenter: Saku Vanhala, Product Portfolio Manager
