

INVITATION

# Join us at PulPaper

29 – 31 May 2018 | Helsinki, Finland

**PulPaper 2018 is the leading international event for forest-based industries.**

Join us at PulPaper to learn how we are continuously challenging the boundaries of established solutions to develop new processes and applications that result in safer, more environmentally friendly, energy efficient and economical higher-value products. As a full-line supplier, we have a proven track record and excellent references in developing energy-efficient products for a wide range of process applications.

Visit our stand 6c50 to take the Sulzer 'Will it pump?' challenge. The prize is sure to get you all pumped up: a drone with HD camera to enjoy new aerial views. Sulzer pumps are the toughest in the business. Come and experience it yourself. You won't believe your eyes. But believe us – you don't want to miss this!

**Will it  
pump?  
Challenge**

**SULZER**

# Join us at PulPaper

On Tuesday, May 30 on Future square, you can learn how we can develop new wood-based applications for your processes together.

Beyond the exhibition, you can also buy tickets to excursions organized by Messukeskus. There are visits to Metsä Fibre bioproduct mill in Äänekoski or Kotkamills in Kotka on Thursday and Friday. Our process pumps play a key role at both mills.

## Time

May 29	Exhibition 9:00 – 17:00
May 30	Exhibition 9:00 – 17:00
May 31	Exhibition 9:00 – 16:00

## Location

Stand 6c50, Messukeskus, Helsinki, Finland  
Admission is free for registered visitors.
