

# Colton service center – Raising the standards in electromechanical services

Sulzer Electro Mechanical Services (EMS) service center in Colton, Southern California, provides the highest-quality electromechanical services for customers in the power, renewable, water and wastewater, manufacturing and other general and heavy industries. Our customers can depend on our engineering expertise and technology for timely support and world-class solutions for motors, drives, generators and all their parts.

Our state-of-the-art facility, experienced electrical engineers and skilled technicians offer remanufacturing, redesign, upgrades and modifications of motors, generators, as well as custom electric control panel systems. With service center that operates 24/7, we are always available when you need us.

## Well-equipped to maintain, repair and upgrade all types of electrical and mechanical machinery

Sulzer Colton service center in Southern California offers extensive services, from repairs, maintenance and upgrades of wind turbines, motors, generators, components and accessories, to custom build and installation of electric control panel systems.

With a strong focus on wind turbine availability, Sulzer offers turnkey solution to substantially reduce downtime and maintenance costs.

## Benefit from our extensive capabilities

- 24-hour emergency repair and complete in-house machine and fabrication shop for repair and manufacture
- New motor sales, new V-47 wind turbine generators, new V-47 wind turbine generators, and custom electrical control panel and options for LV and MV
- Rewinds with inverter voltage spike resistant insulation system
- Computer-assisted winding data check and redesign
- Welding services (build-up and fabrication)
- AC motor and alternator repair and rewinding
- DC motor and generator repair and rewinding
- UL508(a) and UL845 certification

## Complete equipment with the highest standard

- VPI system with polyester resin
- AC-DC test panel
- 15 KV Baker non-destructive surge tester
- DC Hipot to 35 kV
- Banding lathe
- 5'000 LB balance machine
- Engine and turning lathes
- Vertical boring mills
- Horizontal boring mill
- 100-ton vertical press

Using innovative repair methods and the highest quality materials, Sulzer service center in Colton is raising the standards in electromechanical services.

From minor service calls to digital upgrades, you can trust Sulzer to evaluate and service your electromechanical equipment. We help you to keep your operations running with equipment and solution that is unique and tailored to your needs.

Sulzer electromechanical expertise, worldwide and round-the-clock™
