

- 24/7 support
- Leading Gulf Coast new motor sales distributor
- Over a million dollars in new motor inventory

Delivering motors you need, when you need them

Sulzer Electromechanical Services in Pasadena, Texas has been serving our power generation, oil and gas, petrochemical and industrial customers for over 35 years. We are one of the largest new motor distributors in the Gulf Coast. With over a million dollars in motor inventory, Sulzer has the right motor in stock for your application. We are GE Motor's largest distributor in Texas and key partner with TECO Westinghouse, ABB and EM/WEG, along with access to other motor lines.

Our partnerships with these manufactures also provide us access to custom NEMA and above NEMA motors. We provide 24/7 support for emergencies and unforeseen outages, helping reduce costly downtime. Our motor repair shop capabilities allow us to modify motors to meet your specific needs. Sulzer delivers the motors and support you need, when you need them.

New motor lines include:
