

Sulzer Electro Mechanical Services (EMS) new motors for North America

As a leading electromechanical service company, Sulzer EMS can supply industrial electric motors to meet your needs.

Our expansive network and technology-driven solutions enable us to provide heavy industrial users of electric motors with fast expert response, delivery and full support to minimize costly downtime.

With a large inventory and 24/7 support for emergencies and unforeseen outages, Sulzer has the right motor available for your application. Our service centers are distributors for the leading manufacturers of low, medium and high voltage motors.

The partnerships with our major motor manufacturers enable us to supply severe duty, IEEE- 841, API 661, DC, explosion proof and special build motors including NEMA and above NEMA frames. We are one of the leading distributors that stock NEMA vertical inline motors.

Our expert engineers also provide installation and commissioning support on site, to ensure reliable and efficient operation of your motors. Customers benefit by having access to the supply and delivery of new NEMA and IEC frame motors.

Sulzer
delivers the motors
and support you
need, when you
need them

Sulzer electromechanical expertise, worldwide and round-the-clock™

Sulzer represents various industrial duty motors and drives
