Farmington Service Center

Sulzer is a global partner delivering reliable and sustainable solutions for your key applications. We offer repair and maintenance services from a single access point for turbines, compressors, pumps, generators and motors. By operating one of the largest service networks in the industry, we are close to our customers with more than 100 service locations worldwide.

Resources and facilities

Sulzer's comprehensive service center in Farmington, New Mexico is fully equipped to maintain and repair all types of rotating machinery. Over 25,000 ft² of shop space houses complete machining and welding capabilities, underneath 20 tons of overhead crane capacity. Projects are completed by a highly experienced staff of engineers, project managers, sales managers, and technicians combined with a crew of dedicated craftsmen.

Benefit from our comprehensive service offering:

- Machine shop services (manufacture and repair)
- Welding services (build-up and fabrication)
- Pump, compressor, motor, steamturbine and gearbox inspections and overhauls
- 24-hour emergency repair
- Reverse engineering
- AC motor and alternator repair and rewinding
- DC motor and generator repair and rewinding
