

Gillette service center

Sulzer is a global partner delivering reliable and sustainable solutions for your key applications. We offer repair and maintenance services from a single access point for turbines, compressors, pumps, generators and motors. By operating one of the largest service networks in the industry, we are close to our customers with more than 180 production and service locations worldwide.

Resources and facilities

Sulzer's comprehensive electro-mechanical service center in Gillette, Wyoming is fully equipped to maintain, repair and sell a wide range of large motors and generators for customers in mining, power generation, petrochemical, steel and heavy-manufacturing industries. Over 81'000 ft² of shop space houses complete electrical, machining and welding capabilities, underneath 40 tons of overhead crane capacity. Projects are completed by a highly experienced staff of engineers, project managers, sales managers, and technicians combined with a crew of dedicated craftsmen.
