

High voltage coil manufacturing

Sulzer is a global partner with reliable and sustainable solutions for your key applications. We offer repair and maintenance services for all makes and models of rotating equipment including motors, pumps, turbines, generators and compressors from one access point. Operating one of the largest service networks in the industry, Sulzer is close to you with more than 100 service locations and more than 15'500 employees around the world.

Exceeding your service expectations

Sulzer can supply complete sets of coils in the shortest lead times minimising impact on your productivity. Sulzer has optimised the coil manufacturing process with a purpose-built, fully equipped coil manufacturing facility at the Brisbane Service Centre. This ensures complete control of quality guaranteeing each coil passes the stringent checks throughout the complete process. Customers can depend on Sulzer to supply high voltage coils using the latest technology and insulation systems on time, every time.

In house copper mill

Consistent quality

Online ordering

Service second to none

- Our computer controlled heated hydraulic presses with slot pressing capacity up to 7 meters (23 feet) ensures a perfect slot fit even on the largest of coils
- Pre-production support includes 3D CAD and our large database of coil winding information
- Extensive stock of continuously cast copper rod guarantees our ability to meet your demands immediately

Quality control in manufacturing

- ISO 9001, ISO 14001 and OHSAS 18001 management systems
- Stringent quality control procedures
- Geometric design control
- Precision pressing in slot cells
- Comprehensive in-house testing
- AC Hipot
- Tan-delta
- Partial discharge
- Impulse tests
- Independent testing and verification options available

Safe and secure shipment

- Sulzer has stringent quality controls when packing your coils for shipping
- Whether your motor or generator is to be rewound by our team on site or at one of our many Service Centre's, transportation is expedited by road, air or sea ensuring delivery of your coils on time, every time

You can order coils direct using our easy online system
