

Los Angeles service center – Pumps services

Sulzer is a global partner delivering reliable sustainable solutions for key applications. We offer repair and maintenance services from a single access point for turbines, compressors, pumps, generators and motors. By operating one of the largest service networks in the industry, we are close to our customers with more than 180 production and service locations worldwide.

Resources and facilities

Sulzer's comprehensive pump service center in Santa Fe Springs, California is fully equipped to maintain and repair a wide range of pumps for customers in geothermal and conventional power generation, petrochemical, steel and heavy-manufacturing industries. Over 18'000 ft² of shop space houses complete electrical, machining and welding capabilities, underneath 30 tons of overhead crane capacity. Projects are completed by a highly experienced staff of engineers, project managers, sales managers, and technicians combined with a crew of dedicated craftsmen.
