

Performance
through people

Netherlands and Belgium (Benelux), Maastricht-Airport Service Center

Sulzer is one of the world's leading manufacturers of centrifugal pumps. We are dedicated to improving our customers' pumping processes and operational reliability. Our Customer Support Services team responds to industry service needs and is focused on ensuring high performance for all makes of rotating machinery. With an extensive global network of service centers, Sulzer is your ideal local service partner.

Resources and facilities

Our comprehensive workshop facility in Maastricht-Airport is fully equipped to overhaul and repair all types of rotating machinery. We're also able to test submerged pumps up to 90 kW in our own test facility. Additional spare parts support is provided by Sulzer global network of spare parts manufacturing centers. The office center houses engineering, contract administration and sales staff providing services for a wide range of hydraulic, mechanical and metallurgical problems. For complex projects, Sulzer's engineering and technology groups provide the center with industry leading mechanical design and hydraulic development support.

Service expertise

- Repair and refurbishment of all types of pumps and agitators (either Sulzer or non-Sulzer manufacture).
- Equipment performance and material upgrades to meet changing process requirements.
- Provision of skilled field personnel for on-site overhauls, installation, start up and commissioning work plus machinery diagnostics and trouble shooting.
- Round the clock emergency service.
- Comprehensive test facility to test submerged pumps up to 90 kW
- Tailored engineering solutions to enhance equipment reliability and effectiveness.
- Inventory management, exchange unit service program as well as other long term service contracts.
- ISO 9001 and VCA certified facility
