SULZER

W
WERNER

The Sulzer Advantage

Capabilities

- High voltage (HV) and low voltage (LV) rewinds
- On-site field services
- Project management
- Pump repairs
- Mechanical machining

Facility

- Facility size : 3,100 m²
- ISO 9001, ISO 18001, ISO 14001
- 25 tonne crane capacity
- 24/7 facility

Your partner

- Optimise your operational efficiency with customised solutions
- Enhance your competitive advantage through energy efficiency, improved production output and extended maintenance cycles
- Dedicated service personnel can be at any site for emergency call-out, assessment and repair, 24 hours a day – 365 days a year

Taking on Your Challenges

Reliable quality and delivery are ensured through a combination of in-depth technical expertise and first-class engineering facilities. Meeting your requirements means finding the best possible solution with you.

HV and LV rewinds

You benefit from:

- Inspection and electrical testing
- Low, medium and high voltage motor rewinds
- Generator rewinds
- Repair, refurbishment and remanufacture of parts
- Coil manufacture and supply
- 24/7 rapid response and field service
- Service agreements and frameworks
- Up to 11Kv generator repairs

Pump services

You benefit from:

- High quality and cost effective repair and overhaul service
- Performance analysis
- On-site and remote monitoring
- Troubleshooting
- Mechanical inspection and hydraulic upgrades
- Predictive maintenance
- Gear box repairs

On-site field services

You benefit from:

- 24/7 availability
- Fully equipped tool containers
- Portable machining equipment
- Laser alignment
- Vibration analysis
- Thermographic surveys
- On-site balancing
- Insulation condition monitoring
- Experienced field service teams
- Service agreements and frameworks
- Transformer oil analysis / filtration / maintenance

Project management

You benefit from:

- Project planning
- Assessment / feasibility studies
- Site visits
- Contract tendering and bid management
- Multidisciplinary bids
- Design and technical management
- Contract administration
- Programme management (through life cycle)
- Supply chain management
- Stakeholder management plans
- Risk management

Mechanical machining

You benefit from:

- Custom machining solution to suit your need
- Capabilities include welding, metal spraying, grinding, chromium plating and remanufacture
- Metal coating method can be selected for components to optimise operation and maintenance costs
- Service agreements and frameworks
- 24/7 rapid response and field service
