

New Orleans service center – Your provider for service solutions

New Orleans service center

Capabilities

- Steam, gas turbine and compressor services
- Rotor repairs and balancing
- Ultra-precise mechanical machining
- Manufacturing gas turbine components
- On-site field services
- Product sale, installation, repair and maintenance

Facility

- Factory-trained gas turbine expertise
- 5'000 ft² office space
- 20'000 ft² workshop space
- Overhead crane tonnage: 20 tons
- ISO certification 9001:2008, 14001:2004 and OHSAS18001:2007

Your partner

- Optimize your operational efficiency with customized solutions
- Enhance your competitive advantage through energy efficiency, improved production output and extended maintenance cycles
- Providing access to the expertise and facilities available from the worldwide Sulzer network

Close to our customers

Sulzer provides cutting-edge services and solutions for rotating and reciprocating equipment dedicated to improving customer processes and business performance. Operating one of the largest service center networks in its field, Sulzer is close to your business with more than 100 service centers around the world. The New Orleans service center has satellite workshops to be closer to the customer and provide services and products from easily accessible points.

Our service centers in Belle Chasse, LA, Hinston, LA, and Tuscumbia, AL provide products and support as well as field services to our customers.

The workshops in Hinston and Tuscumbia focus on supporting our customers with field services whenever and wherever they need it. The facilities and teams are fully equipped to maintain and repair all types of rotating and reciprocating machinery. The site in Belle Chasse is specialists in support of products.

Sulzer offers complete solutions for your natural gas driven engines in the following industries: natural gas, oil, petrochemical, fertilizer, power generation, landfill and wastewater. Service solutions are for all challenges related to engine controls, emissions, routine maintenance, inspection, and testing.

Sulzer offers a broad spectrum of service and products such as custom ignition systems and accessories and custom control panels by Altronic. Emissions control technologies such as catalysts and silencers by Miratech. In house repair shop for repairing all serviceable items.

Service solutions customized to your needs

Customized and innovative service solutions help you to reduce maintenance time and cost, and improve the efficiency and reliability of your equipment and operation. Our expertise and commitment always deliver reliability, responsiveness, and rapid turn-around. We offer all our services through one access point to simplify your maintenance management. The workshops in Hineston and Tuscumbia focus on supporting customers with field services whenever and wherever they may need it.

Field services for rotating and reciprocating equipment

Comprehensive service offerings

- Machine shop services (manufacture and repair)
- Welding services (buildup and fabrication)
- Inspections (minor, intermediate and major) and overhauls
- 24-hour emergency repair
- Reverse engineering
- Field services and field testing
- Relocation
- Balancing

Service portfolio for mechanical equipment

- Gas and steam turbines
- Axial, centrifugal and screw compressors
- Reciprocating engines and compressors
- F.D. and I.D. fans
- Gearboxes
- Industrial blowers
- Pumps
- Generators

Service portfolio for Siemens SGT and V-series

- Pre-outage inspections
- Minor inspections
- Major overhauls

- Failure investigations
- New construction / commissioning oversight
- TXP & T3000 controls support
- Condition-based scope development
- Special tooling development and supply
- Parts recommendations and supply (capital and consumable)
- Upgrades to improve performance and maintenance intervals
- Resource-loaded schedule development
- Site-specific planning

Improving operational efficiency

Offering high-quality and innovative products that we install, maintain and repair, our solutions can improve the efficiency and reliability of your equipment and operation. We offer all our products, support and repairs through strategically located access point in Belle Chasse to simplify your maintenance management.

Products

Digital ignition systems

- Altronic CPU-95/C/VariSpark
- Altronic CPU-2000
- Altronic NGI series
- Altronic CD-200

Ignition accessories

- Altronic EZRail
- Altronic spark plugs and leads
- Altronic coils
- Champion
- BG
- Stitt

Emission control systems and analyzers

- Altronic air/fuel ratio controllers
- Miratech catalyst and housings
- Testo 340/350
- TECsoft

Engine starters, starting systems and repairs

- TDI turbine starters for reciprocating engines and gas turbines
- Altronic SavAir in head air starting system

Monitoring and safety control panels

- Altronic control panels customized to customers specifications

Governor service and repair

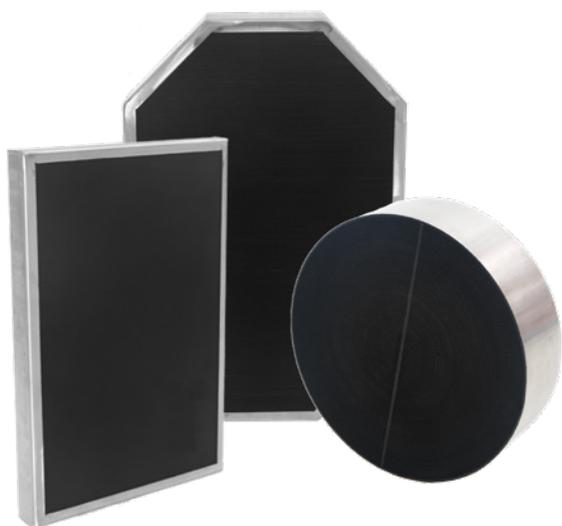

- Altronic
- Woodward

Lubrication systems, sales and repairs

- Lincoln
- Trabon

Bi-fuel systems for stationary diesel engines

- GTI Bi-Fuel
