

# Odessa service center

Sulzer is a global partner delivering reliable and sustainable solutions for your key applications. We offer repair and maintenance services from a single access point for turbines, compressors, pumps, generators and motors. By operating one of the largest service networks in the industry, we are close to our customers with more than 100 service locations worldwide.

## Resources and facilities

Sulzer's comprehensive service center in Odessa Texas is fully equipped to maintain and repair all types of small vertical and horizontal pumps. Over 30'000 ft. of shop space houses complete machining and stellite overlay welding capabilities, underneath 2 x 5 ton cranes along with 3 ton and 2 ton cranes for handling capability. Projects are completed by highly experienced staff of engineers, project managers, sales managers, and technicians combined with a crew of dedicated craftsmen.
