

**Your Service Partner**  
Purwakarta Service Center

# Purwakarta Service Center

## Capabilities

- Gas and steam turbine, pump, compressor, generator and motor services
- Component repair and manufacturing
- Component engineering / metallurgical laboratory
- Air and thermal spray coatings

## Facility

- 2,000 m<sup>2</sup> office space
- 4,600 m<sup>2</sup> workshop space
- Located 70 km East of Jakarta
- 170 employees
- ISO certified

## Your Partner

- Optimize your operational efficiency with customized solutions
- Enhance your competitive advantage through energy efficiency, improved production output, and extended maintenance cycles

# Dedicated Service Solutions for Leading Industries

---

*Dedicated service solutions for leading industries. Your business demands high equipment availability and efficiency. Customized services support you best.*

---

## Power Generation

You benefit from many years of experience in the maintenance of turbines, pumps, compressors, generators and motors used in both conventional and renewable power generation. Together, we find the best solution in response to today's challenges.

## Oil and Gas

Availability, reliability and efficiency of rotating equipment are key for your operations. With a constant desire to push back technical barriers, we provide services to meet your most stringent specifications in the upstream and downstream fields.

## Hydrocarbon Processing

A deep understanding of the processes combined with a flexible approach means you receive the customized solution that helps to improve operational efficiency. You benefit from tailor-made solutions that meet and exceed your service requirements.

## General Industry

Comprehensive services for rotating equipment with short delivery times and tailored to your needs provide minimized downtime. You can reduce your maintenance cost and intervals with our innovative service solutions.

# Your Service Solution

Your operations need to run reliably and flexibly. Solutions to improve these key factors are developed together with you and based on experience and expertise.

# Taking on Your Challenges

---

*Reliable quality and delivery are ensured through a combination of in-depth technical expertise and first-class engineering facilities. Meeting your requirements means finding the best possible solution with you.*

---

## Gas and Steam Turbine Services

You benefit from:

- Turnkey rotor repair and overhaul
- Refurbishments
- Parts replacement
- Component repair
- Lifetime assessment
- Rapid response and field service
- Service agreements

## Centrifugal and Axial Compressor Services

You benefit from:

- Turnkey rotor repair and overhaul
- Parts replacement
- Coating
- Performance upgrade
- Bearing and seal replacement and upgrade
- Rapid response and field service
- Service agreements

## Pump Services

You benefit from:

- Inspection, analysis and overhaul
- Rapid repair
- Parts replacement
- Innovative technology
- Technical optimization
- Rapid response and field service
- Service agreements

## Generator and Motor Services

You benefit from:

- Inspection and electrical testing
- Low, medium and high voltage motor rewinds
- Generator rewinds
- Repair, refurbishment and remanufacture of parts
- Coil supply
- Rapid response and field service
- Service agreements

## Field Services

You benefit from:

- 24/7 availability
- Fully equipped tool containers
- Portable machining equipment
- Laser measuring tool
- Vibration analysis
- Experienced field service teams
- Service agreements
