

# Sulzer Pumps India manufacturing and service facilities

Sulzer is one of the world's leading manufacturers of centrifugal pumps. We are dedicated to enhancing our customers' pumping processes and operational reliability. Our Flow Equipment division offers centrifugal pumping solutions, while our Services division responds to customers' service needs with a focus on ensuring high performance for all makes of rotating machinery. With an extensive global presence, including manufacturing facilities and service centers, Sulzer is your ideal pumping solution partner.

## Resources and facilities

Our manufacturing facilities in Digha (Navi Mumbai) and the state-of-the-art extended manufacturing facility in Ambernath (located 30 km from Digha) are fully equipped to engineer, manufacture, and supply centrifugal pumps for use in oil and gas, power, water, and industrial applications. The centrifugal pumps engineered and manufactured at these facilities cater to the needs of customers both in India and around the world. Our service center in Vadodara, Gujarat provides repair and refurbishment of all types of rotating equipment (both Sulzer and non-Sulzer manufactured) as well as field service support. The technical resource center (100+ engineers) at Navi Mumbai provides design technical services to all Sulzer pump locations worldwide since 2006.

## Industries we serve

---

- Oil and gas – Oil platforms, floating platforms and storage, cross country pipelines, refineries
- Power – CO<sub>2</sub>, solar (CSP), industrial, co-gen, nuclear, super-critical power plants
- Petro-chemicals, bio-fuel, fertilizer and chemical applications
- Water treatment including RO applications

Digha test bed

## What we offer

---

- For water to highly corrosive and abrasive fluid application
- For very high pressure up to 400 bar
- For flow range from 1 m<sup>3</sup>/h to 7'500 m<sup>3</sup>/h
- For both 50 Hz and 60 Hz markets
- For API as well as non-API standards
- Material of construction from carbon steel to exotic alloys such as titanium, hastelloy etc
- Meeting all major Indian as well as global client specification and standards including EIL, Exxon, Aramco, Shell, Total, Petrobras
- Meeting all global safety standards including IECEx certification
- For projects in all parts of the world
