

**Performance
through people**

Sulzer Australia Service Centers

Sulzer Australia is one of the world's leading manufacturers of centrifugal pumps. We are dedicated to improving our customers' pumping processes and operational reliability. Our Customer Support Services team responds to industry service needs and is focused on ensuring high performance for all makes of rotating machinery. With an extensive global network of service centers, Sulzer Australia is your ideal local service partner.

Resources and facilities

Our comprehensive workshop facility in Salisbury is fully equipped to overhaul, repair, service or replace your rotating machinery regardless of manufacturer. Brisbane service team will ensure that your equipment will be serviced to the highest degree, optimizing operational reliability and performance of your equipment regardless of the manufacturer. Test facilities are also available. We perform tank testing on pumps up to 200 kW, mechanical seals test and also curve plotting and BEP of pumps and mixers, also with VSD. For complex projects, Sulzer Australia's engineering and technology groups provide the center with industry leading mechanical design and hydraulic development support.
