

Vadstena Service Center

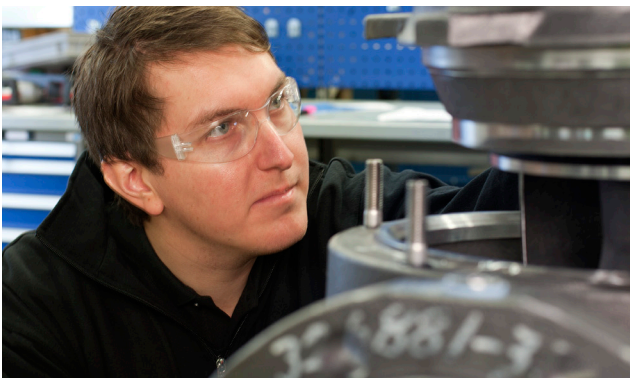

Sulzer Pumps is one of the world's leading manufacturers of centrifugal pumps. We are dedicated to improving our customers' pumping processes and operational reliability. Our Customer Support Services team responds to industry service needs and is focused on ensuring high performance for all makes of rotating machinery. With an extensive global network of service centers, Sulzer Pumps is your ideal local service partner.

Resources and Facilities

Our service center in Vadstena is fully equipped to handle all types of rotating machines. As an integrated part of Sulzer Pumps' modern production facility we have access to an advanced machine park and a top-quality testing room. Beside this, all work is performed by service technicians with long and solid process- and application experience. For complex projects, we cooperate with Sulzer Pumps' technology centers.

Service Expertise

- Repair and refurbishment of all types of pumps and agitators – both within the Sulzer range and for non-Sulzer products.
- Original spare parts for optimal reliability.
- Perform upgrades of equipment and materials, to meet changing process requirements.
- Installation and start-up support, field-tests e.g on-site overhauls, machinery diagnostics and trouble shooting.
- Energy optimization studies including analysis, proposed actions, potential savings and payback.
- Tailored engineering solutions to enhance equipment reliability and effectiveness.
- Service agreements within e.g inventory management, exchange unit service programs as well as other long term service contracts.
- Round the clock emergency service.

Performance Through People
