Sulzer further strengthens Middle East presence with acquisition of Davies and Mills in Bahrain

Sulzer announces the acquisition of Davies and Mills, a leading electromechanical services (EMS) provider based in Bahrain. With this acquisition, Sulzer expands its regional footprint in the Middle East to six service locations, welcoming 53 former Davies and Mills employees to the Sulzer family in Bahrain. The acquisition was concluded in January 2025, bringing exceptional expertise to Sulzer's portfolio.

Sulzer continues to invest in the Middle East, adding its sixth service center in six years, significantly expanding its regional footprint. The expansion underscores Sulzer's commitment to establishing full-service, in-region capabilities supporting the needs of industrial customers. The new facility offers maintenance and repair services for rotating equipment—including generators, alternators, motors, and pumps—while strengthening its footprint in Bahrain and Saudi Arabia.

Premier electromechanical service offering

The combined strengths of Davies and Mills' technical expertise and Sulzer's extensive network position the company as a premier electromechanical service provider in the Middle East. With enhanced solutions throughout the entire lifecycle of critical industrial equipment the company is well positioned to meet the region's diverse needs.

Ravin Pillay-Ramsamy, President of Sulzer's Services Division emphasized the company's broader vision: "This acquisition supports Sulzer's long-term strategy to strongly position our service capabilities in growth markets such as the Middle East. Davies and Mills brings exceptional expertise to our portfolio. Combined with Sulzer's regional footprint and global network, we create a powerful partner for our customers' benefit. We're excited to welcome Davies and Mills employees to Sulzer – their can-do spirit perfectly complements our commitment to excellence and customer-focused culture."

Unlocking potential to seize growth opportunities

Davies and Mills General Manager, Martin Stratford, commented, "Joining Sulzer represents an exciting new chapter for our team and our customers. With Sulzer's extensive resources and global network, we are confident that this partnership will unlock new opportunities and elevate the quality and reach of our services across the region."

Sulzer is a global leader in critical applications for core infrastructure and processes for large essential industries around the world. We ensure the security, quality and durability of critical goods and services by supporting energy security, natural resource management and efficiencies in process industries. This in turn supports the transition to a circular economy. Our integrated solutions add significant value by enabling energy efficiency, carbon emissions and pollution reduction, and process efficiency improvements. Customers benefit from our commitment to innovation, performance and quality through our responsive network of 160 world-class manufacturing facilities and service centers across the globe. Sulzer has been headquartered in Winterthur, Switzerland, since 1834. In 2023, our 13'130 employees delivered revenues of CHF 3.3 billion. Our shares are traded on the SIX Swiss Exchange (SIX: SUN). www.sulzer.com
