Pumps and pumping systems

Spare part kits XFP (PE1 / PE2) and Piranha PE

Save time and costs with service kits

When it's time to service a pump, it's helpful to have all your spares ready to go - whether you need O-rings, gaskets, mechanical seals, bearings or other components. Our specially designed service kits make working on your pump faster and easier by offering the components your pump requires in a complete package. Not only will you have the right parts for the job, but you'll also save time and money.

The right parts for the job

All parts required for a specific service task are available in a single package. Each is clearly marked with its own unique identification number, product type, size and description for ease of reference.

Sturdy packaging and clear labeling make the service kits easy to store and use. The packaging protects the individual items from damage and can be recycled after use.

Easier handling

Identification, selection, purchasing and inventory management are simplified as a single stock keeping unit (SKU) replaces a list of individual part numbers for items in the kit.

High quality parts

The kits are full of new original spare parts, such as gaskets and O-rings. This ensures that during servicing only the best quality components are used, increasing reliability and reducing the lifetime costs of serviced equipment.

Our kits

We offer specially designed spare part kits for both the XFP and Piranha pumps. These kits ensure that maintenance operations for these models are expedited and simplified, all while ensuring a quality repair.

Spare parts included in kits

	Seal kit	Overhaul kit	Hydraulic fixing kit	Cable seal kit	Hydraulic kit
O-rings and gaskets	●	●			
Mechanical seals		●			
Bearings		●			
All gaskets, seals and washers required for cable replacement				●	
Impeller					●
Wear rings / sideplate (CB hydraulic)					●
All parts required for impeller assembly			●		●

Examples of kits and single spare parts needed for standard repairs

	Overhaul kit	Hydraulic fixing kit	Cable seal kit	Hydraulic kit	Single spare parts
Basic overhaul	●				
Complete overhaul	●		●	●	Cables
Hydraulic replacement				●	
Impeller replacement		●			Impeller
Cable replacement			●		Cables
