

Margate service center – Unparalleled commitment to aeroderivative service

Sulzer Turbo Services (TS) service center in Margate, Florida, provides reliable around-the-clock service to our customers. With over 150 years of combined work experience, you can count on our knowledgeable staff to keep your aeroderivative gas turbines up and running.

Quality service you can rely on

High-quality and reliable repair and support is not something every company can offer. Sulzer can provide this because we continually maintain and improve our high standards in our quality management system, product processes, and customer service.

We institute practices and processes to ensure all parts are inspected and repaired according to the highest specifications. All procedures are performed in accordance with applicable Pratt & Whitney Overhaul Manuals, Turbo Services-approved repair procedures, or customer specifications in conjunction with inspection findings and industry-standard actions.

Extensive service capabilities

Our Margate center offers a total package of services for aeroderivative gas turbines. Because of our wide array of capabilities, we're a one-stop-shop for all your repair needs.
