

Casablanca service center

Sulzer is a leading manufacturer of centrifugal pumps and the high quality of our innovative products, services and system solutions is recognized worldwide. Our mission is to improve the processes and profitability of your business.

Our service centers respond to all your needs, always prioritizing the reliability and performance of your rotating equipment. Sulzer's expansive global network of service centers makes us your ideal partner for local engineering support.

Facilities and resources

The team of experts at the Casablanca service center has a comprehensive selection of tools and equipment, as well as inspection and assembly areas, to facilitate a broad range of service activities. The supply of spare parts is efficiently managed by Sulzer's global manufacturing network. Our technical office and sales personnel can resolve the vast majority of hydraulic, mechanical and metallurgical problems. For more complicated projects, Sulzer's engineering and technology teams can lead mechanical and hydraulic development projects.

What we do

- Repair and recondition all types of rotating equipment (Sulzer and other brands)
- Upgrade equipment materials to meet changing process requirements
- Provide experts to conduct on-site overhauls, installations, commissioning and inspections
- 24/7 Emergency response to breakdowns
- Customized engineering solutions to improve equipment reliability and performance
- Long-term maintenance contracts

How can we help you?
