

## Qatar Service Center

---

Around-the-clock engineering services for any brand of pump, turbomachinery and rotating equipment

### Global expertise, local delivery

---

Sulzer is a global leader in pump manufacturing and independent rotating equipment services. Our Qatar Service Center provides world-class in-house and on-site engineering solutions to maximize:

- Reliability
  - Efficiency
  - Profitability
  - Sustainability
- 

### Pump Services (PS)

End-to-end support for all pump brands including repairs, retrofits, upgrades and energy efficiency enhancements.

---

### Turbomachinery Services (TS)

Expertise in inspection, overhaul and upgrades for gas turbines, steam turbines, compressors, expanders, gear boxes and critical process machinery.

---

### Electromechanical Services (EMS)

Turnkey repairs, rewinding and testing services including borescope and robotic inspections. We provide services for low, medium and high-voltage motors, generators, blowers and other drivetrain equipment.

---

## World-class expertise in Qatar

---

Sulzer's comprehensive service offering covers repair, diagnostics, upgrades and long-term service agreements – all delivered from our dedicated Qatar Service Center located in Ras Laffan.

- 24/7 field service support and incident response
- State-of-the-art service center
- 60-ton overhead crane capacity
- CNC and conventional machining for large rotating equipment
- Reverse engineering and rapid parts manufacturing
- Dynamic balancing up to 20 tons
- Complete motor and generator repair, rewind and testing capabilities including Ex/ATEX equipment
- Fabrication and welding
- Surface engineering, coatings and thermal spray services
- Superfinishing and grinding services for critical components
- Field service engineers for turnkey solutions and on-site delivery
- 24/7 field service support for inspection, alignment, installation, and troubleshooting.
- Laser alignment, vibration analysis, and condition monitoring
- Engineering support for:
  - ▶ Pumps
  - ▶ Steam turbines
  - ▶ Gas turbines
  - ▶ Compressors
  - ▶ Blowers and fans
  - ▶ Rotor repairs
  - ▶ Motors and generators
  - ▶ Gearboxes
  - ▶ Fluid couplings
