

Sulzer Turbo Services, Venlo

Sulzer is a world-renowned global pump OEM and an independent service provider for all types of rotating equipment, including turbomachinery. Providing first-class products, services and system solutions to improve critical processes, Sulzer boosts efficiency, reliability and value for its customers.

Our Service Centers deliver unrivalled access to advanced repair technologies, tailored equipment upgrades, state-of-the-art parts manufacturing and industry-leading technical expertise. World-renowned for solving engineering challenges, these facilities help customers reach new levels of operational prowess.

Resources and facilities

The Venlo facility offers 4'000 m² of floor space dedicated to the repair, upgrade and overhaul of rotating equipment from any brand. A specialist provider of turnkey engineering services for gas turbines, steam turbines and compressors, the facility is the trusted partner of operators in the industrial, waste-to-energy, oil & gas and chemical sectors.

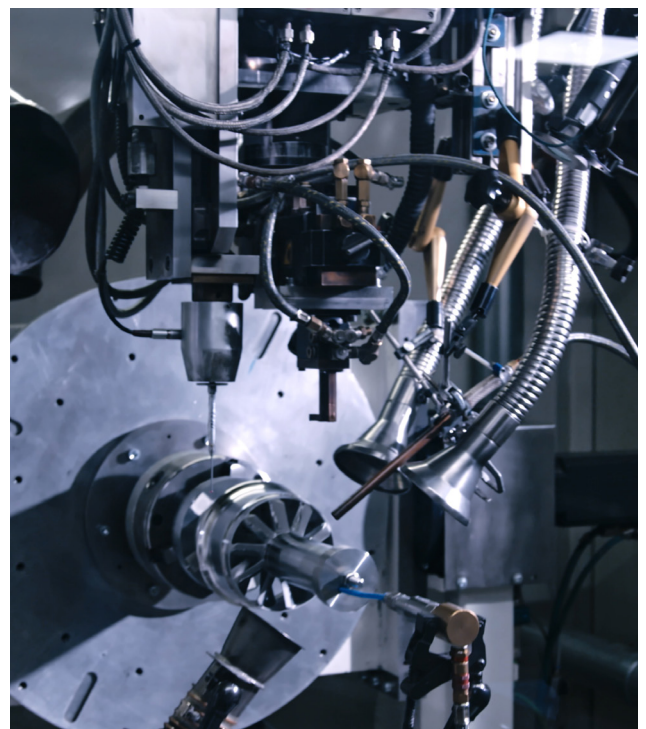

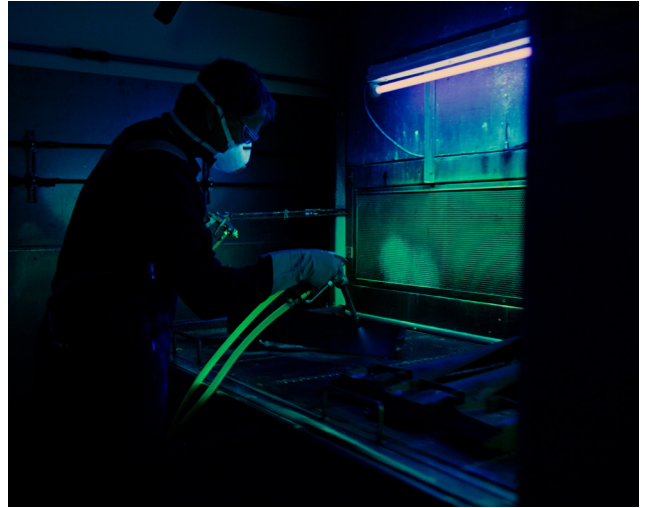

General capabilities

- Reverse engineering
- Parts design and manufacturing
- Component repair
- Field services
- Disassembly and reassembly
- Precision machining
- Welding
- Casting
- Laser cutting
- High and low speed balancing
- 3D scanning and modelling
- Mechanical, metallurgical and NDT inspections
- Material analysis
- General testing

Steam turbine services

We service industrial steam turbines up to 75 MW, supporting impulse and reaction designs with single or multi casings.

- Rotor overhauls
- Reblading
- Casing refurbishment
- Erosion protection modifications
- Blade welding and repair
- Valve and diaphragm repairs
- New blades, vanes and nozzle blocks
- Protective coatings
- Seal replacement
- Bearing repair

Gas turbine services

A 120-tonne crane capacity and a full stacking pit means we can accommodate the vast majority of engines.

- Rotor overhauls
- Reblading
- Burners
- Combustion liners and transition pieces
- Hot gas casings and mixing chambers
- Blades and vanes
- Protective coatings
- Seal replacement
- Bearing repair

Quality guaranteed

The following certified management systems are implemented to ensure the highest quality standards:

- NEN-EN-ISO Certification 9001:2015
- NEN-EN-ISO Certification 14001:2015
- NEN-EN-ISO Certification 45001:2018
- SCC** Petrochemicals 2017/6.0
- Bearing repair
