

Innovative and proven solutions for fish farming

The present and future design of offshore and onshore fish farms is efficient in terms of feed control, waste collection, and fish escape security. Sulzer offers several energy-efficient and reliable products to support these new and more environmentally-friendly production methods.

Proven expertise

- Experience in managing a diversity of process liquids in tough environments
- Superior application knowledge based on long partnership with fish producers and equipment suppliers
- Energy-efficient products with small life cycle costs and a lighter environmental footprint
- New solutions for your future applications

Material competence

We have optimized the material selection for all kinds of pumping and mixing applications. Our process pumps are supplied with duplex steel as standard and we also have products available in cast iron, stainless steel, superduplex, SMO, titanium, etc.

Key customer benefits

- Advanced materials and a wide range of pumps and mixers for seawater applications
 - Innovative shaft sealing solutions for reliable operation and reduced costs
 - Support and qualified services for the entire product lifecycle
 - Tailor-made product solutions with small total cost of ownership
-

Extensive product coverage

Through a wide portfolio, we propose to you the most adapted pumping, mixing and aeration solutions. Our high-efficiency products will improve the performance, reliability and sustainability of your fish farming plants.

Process pumps

AHLSTAR process pumps

AHLSTAR self-priming and gas removal pumps

SNS process pumps

CPE ANSI process pumps

SES and SKS EN 733 pumps

Accessories

Ejector

Vertical pumps

SIL vertical inline pump

VMS vertical multistage pump

JTS standard vertical turbine pump

AGV vertical axial flow pump

VA vertical cantilever pumps

VM vertical slide bearing pumps

Specialty pumps

ZPP and SMD double-suction pumps

CAHR axial flow pump

MBN multistage ring section pump

Positive displacement pumps

PC transfer pump

PC cake pump

PC dosing pump

Submersible pumps

XFP submersible heavy-duty pump

VUPX submersible propeller pump

AFLX submersible propeller pump

XJ submersible drainage pump

Robusta submersible light drainage pump

XRCP submersible recirculation pump

Agitators and mixers

SALOMIX and Scaba top-mounted agitators

SALOMIX SSA and SSF side-mounted agitators

RW submersible mixer

XRW submersible mixer

Grinders

Muffin Monster™ grinder

Channel Monster™ grinder

Aerators and compressors

OKI submersible aerator mixer

Venturi Jet submersible aerator

XTA and XTAK submersible aerators

DDS disc diffuser system

HST™ turbocompressor

HSR turbocompressor
