

- IECEx Approved Service Facility
- Minimized downtime
- Optimized efficiency

Discover the Sulzer Partnership - Overhaul and Repair of Hazardous Area Motors

Sulzer is your global partner with reliable and sustainable solutions for your key applications. We offer repair and maintenance services for your pumps, turbines, compressors, generators, and motors from one access point. Operating one of the largest service networks in the industry, Sulzer is close to you with more than 100 service locations and more than 3,600 employees around the world.

Customized solutions

Customized solutions significantly contribute to the optimization of operational efficiency. The reduction of maintenance costs results in lower operational expenses. Customer-specific contracts with a defined amortization period are an effective way to keep your maintenance costs as low as possible. Sulzer experts support you in finding the ideal solution to improving the performance of plants as well as the life cycle of machines. Independent of the manufacturer, type and material, technical consulting, inspection, preventive maintenance as well as the repair of rotating equipment make an important contribution to keeping your operations at the highest level of efficiency.

Benefits from our ex certified service facility

- 365 days, 24/7 emergency services available
